# TAKE THE TEST

**Pipplet is different from usual multiple-choice tests.** When you take Pipplet, you provide **open-ended responses**, both spoken and written, which are then evaluated by language experts.

## **We recommend that you:**

- Prepare your answers before speaking to ensure smooth and structured responses.
- Respond as extensively as possible. The more detailed your answers, the better the examiner can assess the breadth of your knowledge.
- Structure your speech. An important aspect of language is the ability to connect sentences coherently.
- Review your responses. Each question is timed, so be mindful of the time and reserve 30 seconds for reviewing your answers.

Please refer to [\*\*the following link\*\*](#) for technical requirements or technical issues.
